# PEACE UDOCHI

Software Engineer | Backend Engineer | Full-Stack Developer
Ashiegbuudochi@gmail.com | Lagos, Nigeria
GitHub | LinkedIn | Portfolio

## PROFESSIONAL SUMMARY

Software engineer building and deploying backend and full-stack web applications with Python (Django, Django REST Framework, FastAPI, Flask), Go, JavaScript, TypeScript and React. Experienced in designing REST APIs and data models on PostgreSQL, MySQL and MongoDB, and in shipping to production with Docker and AWS, most recently a live loan application platform for a Lagos finance firm. Currently a backend engineering intern at Tavcorp, with additional experience teaching Django and reviewing AI-generated code. Brings several years of earlier operations, logistics and customer service leadership, which helps in turning business requirements into practical software.

## TECHNICAL SKILLS

- **Programming Languages:** Python, Go, JavaScript, TypeScript, Java, SQL, HTML, CSS
- **Backend Development:** Django, Django REST Framework, FastAPI, Flask, REST API design, Pydantic, authentication, role-based access
- **Frontend Development:** React, Next.js, Redux, responsive UI development
- **Databases:** PostgreSQL, MySQL, MongoDB, Firebase
- **Cloud & DevOps:** AWS (EC2, RDS, S3, IAM), Docker, Nginx, CI/CD, Infrastructure as Code, Vercel, Cloudflare Workers
- **Development Tools and Practices:** Git, GitHub, code review, Agile, data structures & algorithms

## PROJECTS

**OyaWork: Worker–Employer Job Platform** https://oyawork-seven.vercel.app

- Built a full-stack platform (React, TypeScript, Django REST Framework) connecting menial job workers with employers in Lagos.
- Designed the data models and REST API for onboarding, profiles, job posting, job requests and worker–employer matching.

**FoodDash: Food Ordering and Delivery Platform** https://food-dash-app-nine.vercel.app/

- Built a full-stack food ordering platform with a Go backend and React frontend.
- Designed API endpoints for authentication, restaurant management, orders and payments, and deployed to Cloudflare Workers for edge hosting.

**Result Portal** https://northstar-uni.vercel.app/

- Built a full-stack academic result portal in Django, with backend logic and data models for managing results.

**Student Management System API**

- Built a student records API in both Flask and FastAPI, with CRUD for students, courses and enrolments.
- Added request validation and structured error handling, with Pydantic schemas and async endpoints in FastAPI.

**E-commerce App** https://e-commerce-app-kappa-opal.vercel.app/cart

- Built a responsive React storefront with product listings, a cart (add, update, remove items) and a checkout flow.

**Budget Tracker** https://budgettracker-632f3.web.app

- Built a React app for tracking income, expenses and categories, with Firebase for data storage and hosting.

## PROFESSIONAL EXPERIENCE

**Backend Engineering Intern** *2026 – Present*
*Tavcorp | Remote*

- Build and maintain backend services and RESTful APIs in Python (Django, FastAPI).
- Design data models and write database queries, with a focus on data integrity.

- Work with frontend developers and the engineering team to deliver features, and join code reviews and standups.

**AI Data Trainer** *2026 – Present*
*Sme Careers by SuperAnnotate* | *Independent Contractor, Remote*

- Evaluate and annotate AI model outputs against detailed project guidelines to improve model accuracy.
- Review AI-generated code and content for correctness, flag errors and edge cases, and write clear feedback.

**Full-Stack Engineer** *2026*
*Manharrtan Capital Limited* | *Contract* | https://manharrtancapital.com

- Built the company's production website end to end in a one-month contract: Next.js (React, TypeScript) and Django REST Framework.
- Implemented a loan application flow and an admin dashboard with role-based access, encrypted sensitive fields and private S3 ID storage.
- Containerised the application with Docker and deployed it on AWS (EC2, RDS PostgreSQL, S3, IAM) behind Nginx, with HTTPS via Let's Encrypt, a custom domain and single-command deployment from GitHub.

**Full-Stack Python Instructor** *2026*
*EdPassare Tech School* | *Contract*

- Teach Django to students, covering models, views, templates and URL routing.
- Guide students through building full-stack Python web applications, and review their code with written feedback.

**Software Engineer Trainee** *2025 – 2026*
*Semicolon Africa* | *Lagos*

- Built and consumed RESTful APIs as part of cross-functional project teams.
- Took part in code reviews and Agile ceremonies, and strengthened my data structures and algorithms skills.

**Head of Operations** | *Healthily Vitae NG, Remote* *2025 – 2026*

- Promoted from Head, Customer Fulfilment Specialist for performance, leadership and raising team productivity.

**Data Entry Personnel** | *KIRRO.AI, Remote (Dallas, Texas)* *2025 – 2026*

- Maintained accurate records across large datasets, with careful attention to data integrity.

**Head, Customer Fulfilment Specialist** | *Healthily Vitae NG, Remote* *2024 – 2025*

- Ran customer fulfilment and logistics, improving service delivery and keeping order processing on time.

**Sales Manager** | *Ejim Ltd, Remote* *2024*

- Built customer relationships, worked to sales targets, and used sales metrics to adjust strategy.

**Call Center Manager** | *Intertrade Supply Limited, Remote (Moscow, Russia)* *2023 – 2024*

- Led call center operations, improving team productivity and customer satisfaction through process changes.

**Logistics Manager** | *Native Delight Restaurant* *2023 – 2024*

- Managed inventory and delivery logistics, improving delivery efficiency and coordination.

**Customer Service Representative** | *Midnight City Restaurant* *2023*

- Handled customer inquiries and resolved complaints while maintaining high satisfaction standards.

**Receptionist** | *C&A Bakery* *2020*

- Managed front-desk operations, customer interactions, scheduling and administrative tasks.

## EDUCATION & CERTIFICATIONS

**SEMICOLON AFRICA** | Diploma in Software Engineering *2025 – 2026*

**ALTSCHOOL AFRICA** | Diploma in Cloud Engineering *2024 – 2025*

**IMO STATE UNIVERSITY** | B.Sc. Accounting *2023*

**HENLEY BUSINESS SCHOOL** | Certificate in Business *2026*

**UDEMY** | Certificate in Prompt Engineering *2025*
